Good morning,

The Tieton is currently stationed at transect 6(W). The Pre-RD group plans to return to SIL to pick up more tubing. An additional Pre-RD member will be joining the vessel at this time.

Today's activities will include sampling at transect 6 (W,E, and NAV). Included are photos of the Gravity crew assembling hose to the resin column on the Gravity PR2900.

Photo 1: site location 6W

Photo 2: Assembling sampling hose to anchor

Photo 3: Assembling tube to column
